FEDERAL ENERGY REGULATORY COMMISSION

This letter is for the elected and appointed governmental officials named above. As a resident of New Rochelle and New York State, my family and I have been privileged to enjoy the beauty and utility of the Long Island Sound for many years. We go to the beaches, occasionally go boating and often just picnic and relax as the Sound serves as a picturesque backdrop to these special family moments.

It is my strong opinion that the natural treasure that is the Long Island Sound will be permanently damaged by the ill-conceived Broadwater Project. As an active voter, I ask you on behalf of myself and my family to use your position to both oppose and stop the costly and risky Broadwater project. Please be a voice for the individuals and not the companies and by speaking for us you will continue to make this such a great area to raise a family.

Thank You

David Long
